

# ErgoRack®

For Nissan NV200

**PRIME DESIGN™**

ErgoRack eliminates the strain from unloading and stowing heavy ladders onto work vehicles.

This regularly performed operation can get cumbersome, especially when factoring in ladder weights, ladder lengths, operator body types, and vehicle heights. Quite often, a worker takes the unnecessary risk of climbing on a vehicle's tire or bumper to complete this task.

## ■ Easy to use

Make unloading and stowing heavy ladders from a vehicle's roof easy and with less strain.

## ■ Enhance Safety

Ladder deployed to operator versus climbing on bumper or tire which eliminates slip and fall hazards.

## ■ Improve productivity

Deploy or stow in less than 20 seconds.

## ■ No Drill Installation

Maintain vehicle warranty and resale value with no holes to drill.

### Features:

Ergonomically Designed

Hydraulically Dampened Descent

Auto Clamped

Easy Compatibility

Built-In Security

Built for Efficiency
